Education

École des Hautes Études d'Ingénierie et de Management (EHEIM) 2024 – Present
Engineering Degree – Computer Engineering Oujda, Morocco

École Supérieure de Technologie d'Oujda (ESTO) 2023 – 2024
Professional Bachelor's Degree – Business Intelligence Oujda, Morocco

École Supérieure de Technologie d'Oujda (ESTO) 2021 – 2023
DUT (University Diploma of Technology) – Software Application Development Oujda, Morocco

Professional Experience

Eva-Factory July – Sept 2026
PFA Internship – Intern Management Oujda, Morocco

- Design and development of an intern management application: **Python** / **FastAPI REST API** with hexagonal architecture, **PostgreSQL** database and **React** interface
- Security implementation with **JWT**, **Docker** containerization, **GitHub Actions CI/CD**, **pytest** testing and security analysis **(Trivy)**
- Development of an AI agent **(LangGraph, RAG, pgvector, Groq)** answering HR questions about intern tracking

Techno-Logica June – Aug 2024
PFE Internship – E-commerce Platform Oujda, Morocco

- Development of a full-stack e-commerce platform with **Spring Boot**, **Angular** and **SQL Server**, secured with **JWT**
- Implementation of tests **(JUnit 5, Mockito)**, database migrations **(Flyway)** and API documentation **(Swagger)**
- Sales analysis with **Power Query** and **Power BI**: star schema, **DAX** measures and dashboards

CHU Mohammed VI July – Aug 2023
PFE Internship – Patient Management Oujda, Morocco

- Design and development of a patient management application **(HTML, CSS, PHP, MySQL)**

Projects

Multi-Agent Research Assistant

- Development of a multi-agent system in **.NET** with Agent Framework on **Microsoft Foundry (GPT, Web Search)**, combining a web research agent and a report-writing agent.
- Implementation of an **anti-hallucination** control and integration of the agents into an **ASP.NET Core** and **Angular** web application, with **SQL Server** and **Docker**

UniLife Hub – University Platform with Microservices Architecture (team project)

- Development of a courses and training service with **Spring Boot** and an **API Gateway** with **ASP.NET Core (YARP)** secured with **JWT**, following the **Agile Scrum** methodology with **Jira**
- Integration of a conversational AI assistant **(LLaMA 3.3 via Groq)** and a predictive model for order cancellations **(Gradient Boosting, Streamlit)**
- Implementation of **Docker** containerization, **CI/CD** deployment on **GitLab** and **Prometheus/Grafana** monitoring

Sports Club Management Information System (academic project)

- Design and **UML/Merise** modeling based on the real needs of a local sports club (Memberships, Bookings, Payments)
- Development of a web platform **(HTML, CSS, PHP, JavaScript, MySQL)** and a **Java (JDBC)** back-end application for managing members, bookings and payments

Skills

- **Languages & Frameworks :** Java, Spring Boot, C#, ASP.NET Core, Python, FastAPI, Angular, React
- **AI Engineering :** Machine Learning, NLP, LLM (LLaMA, Groq), Scikit-learn, XGBoost, Streamlit
- **Data & BI :** Power BI, Power Query, Pandas, DAX, ETL
- **Cloud & DevOps :** AWS, Docker, Jenkins, Ansible, Git CI/CD, Prometheus, Grafana
- **Databases :** PostgreSQL, MySQL, SQL Server, MongoDB
- **Soft Skills :** Adaptability, teamwork, problem-solving, collaboration

Languages

Arabic: native **French:** advanced **English:** advanced
